Education

- B.Tech in Computer Science (AI & ML), Bansal Institute of Science & Technology, Bhopal | Sept 2023 – June 2027| CGPA: 7.84
- **Relevant Coursework:** Data Structures and Algorithms (DSA), Object-Oriented Programming (C++), Database Management Systems (DBMS), Operating Systems, Machine Learning.

Technical Skills

- **Languages:** C++ (Advanced), Python (Intermediate), C.
- **Machine Learning:** Scikit-learn, Pandas, NumPy, Random Forest, Data Preprocessing.
- **Cloud & Tools:** Oracle Cloud Infrastructure, Cisco IoT, Git/GitHub, VS Code

Projects

Crop Recommendation System | Python, Scikit-learn, Random Forest

- Developed an end-to-end ML model to predict optimal crop types based on soil nutrients (N, P, K) and climatic factors (Temperature, Humidity, pH, Rainfall).
- Achieved **95%+ accuracy** by implementing a Random Forest Classifier and performing rigorous data cleaning on multi-dimensional agricultural datasets.
- Optimized model performance by identifying and handling feature correlations, reducing overfitting.

College Information Chatbot | Python, Chatbot Frameworks

- Built an automated query resolution system to streamline student inquiries regarding admissions and schedules.
- Integrated a logic-based response system that reduced human administrative intervention by approximately **30%**.
- Focused on user experience design to handle edge-case queries and improve real-time engagement.

Certifications

- **Cloud Infrastructure Foundations** – Oracle (Oct 2025)
- **Internet of Things (IoT)** – Cisco (Sep 2025)
- **C++ Specialization** – Udemy (Nov 2024)

Achievements

- Certified in Cloud and IoT by industry leaders (Oracle & Cisco), demonstrating a commitment to emerging technologies.
